### Summary

I have completed my Bachelor's degree in Computer Science and Engineering in 2025. I am passionate about web development, skilled in building dynamic, user-friendly applications, and creative in solving complex problems. I am committed to continuous learning and delivering high-quality, innovative solutions.

### Projects

#### MY PORTFOLIO

- **Engineered** a fully responsive and visually appealing portfolio using **React**, showcasing expertise in core languages including C, C++, Java, HTML, CSS, JavaScript, and React.
- **Integrated** live project demos, tech stacks, and achievement badges with certificate verification links to demonstrate continuous learning and hands-on experience.
- **Optimized** the user experience with clean navigation, mobile-first design, and an interactive contact section to facilitate recruiter outreach and engagement.

#### Salon Appointment Management Web App

- Developed a full-stack salon management system using **HTML, CSS, JavaScript, Node.js, Express.js**, and MongoDB.
- Implemented features for slot booking, queue tracking, and earnings calculation for salon managers.
- Integrated real-time status updates and efficient backend APIs for fast and reliable booking operations.

#### Infinity Insurance Management

- Built a responsive insurance website using **HTML, CSS, and JavaScript** with dashboards for agents, customers, and employees.
- Implemented features like customer lists, premium tracking, policy management, task assignments, and due payments.
- Designed a clean, intuitive UI with full mobile responsiveness and cross-device compatibility.

#### Innovexa Technologies – IT Company Website

- Created a modern multi-page website simulating a real IT company with sections like Home, About Us, Services, Blog, Our Work, Careers, and Skill Development. Developed a Careers section listing open positions and a Skill Development page offering categorized resources for technical, soft skills, and career growth paths.

### Skills

- **Programming Language:** Java, JavaScript
- **Frontend Technologies :** HTML, CSS, React
- **Backend Technologies :** Node.js, Express.js
- **OOPS & Data Structure :** Implementation
- **Version Control:** Git, GitHub
- **Database:** SQL, MySQL

### Certificates

- Java Programming Certificate – Great Learning
- Programming Certificate- Infosys Springboard
- Full Stack Development Course-Great Learning

### Education

|                                       |                   |
|---------------------------------------|-------------------|
| Bengal Institute of Technology        | 08/2021 - 05/2025 |
| B.TECH (CSE)   CGPA:6.93/10           |                   |
| Deulpara Bhudharinath Vidyaniketan    | 04/2020 - 05/2021 |
| Higher Secondary   Percentage: 73/100 |                   |
| Deulpara Bhudharinath Vidyaniketan    | 04/2017 - 05/2018 |
| Secondary   Percentage:68/100         |                   |
